

## **Disaster Management Centre, Himachal Pradesh Institute of Public Administration Fairlawns, Shimla-12**

Himachal Pradesh is a small hilly state and falls in the North-western Himalaya. The Himalayas are the youngest mountain chains in the world and are considered seismically very active. Thus the state from the seismicity point of view can be considered as most sensitive and its most of the area falls in the zone IV and V. Keeping in view the seismic vulnerability of the State main emphasis was given to provide most of the trainings to the Officers/Officials/PRI/ULBs and Representatives of NGOs and NYKs on Earthquake Safety and accordingly during the year about 10 training programmes were conducted particularly on “Earthquake Risk Mitigation & Management”. During the financial year **2015-16** this Disaster Management Centre, HIPA has conducted **25** training programme by involving **695** participants covering **73** days and by generating **1922** training mandays.

### **OBJECTIVES & FUNCTIONS:-**

- ❖ To create awareness & knowledge dissemination in the field of Disaster Management.
- ❖ To develop adequate capacity of all stakeholders for dealing with all facets of disaster management.
- ❖ To improve quick response and recovery process for saving the people of the State.
- ❖ To enhance the efficiency & performance level of the disaster management functionaries.
- ❖ To disseminate information on important concepts, guidelines, and policies issued by National Disaster Management Authority (NDMA), National Institute of Disaster Management (NIDM) and State Disaster Management Authority (SDMA) from time to time.
- ❖ As per Disaster Management Act-2005 to promote Capacity building of Government functionaries at all levels for preparedness and mitigations measures in Disaster like situation.
- ❖ To develop a holistic and integrated approach towards disaster management with emphasis on building strategic partnerships with stakeholders and Knowledge institutions at various levels.
- ❖ To establishing a “Centre of Excellence” for addressing multiple disasters mitigation and management in the state of Himachal Pradesh.

### Outcome of Training Programmes:

1. DMC HIPA, in collaboration with HPSDMA organized three days training programme on Incident Response System to the Officers of District Administration and different departments vide which National level Faculty imparted knowledge & skill to the trainees. The main objective behind this programme was to follow the guidelines on IRS in the matter and pre-designate the officers to perform various duties as well as train them in their respective roles and responsibilities.
2. The State being the part of the Himalayas is seismically very active and is highly vulnerable since 32% of the total area of the State falls in very high damage risk zone known as zone V and rest of area on zone IV. In order to address the requirements of earthquake disasters emergency situations the Disaster Management Centre, HIPA organized successfully about 10 programmes on Earthquake Risk Reduction & Management during the year for the key stakeholders of the State.

3. Trauma is a leading cause of death and disability especially amongst young people. Lack of medical attention attributed to 30 per cent of deaths at site and 80 per cent of the remaining patients died within an hour of injury (golden hour). Early trauma deaths result from failed oxygenation of the vital organs, massive central nervous system injury, or both. To combat this problem DMC, HIPA successfully organized about three programmes on Mass Casualty Management & Search & Rescue for the Doctors, Paramedical Staff and Coordinators of NCC, NSS, Scout & Guides, and representatives of Home Guards & Civil Defence & Civil Society. The main objective behind this training programme was to enhance knowledge and skills of above professionals in First Aid and Search & Rescue so as to coping with the situation immediately after the disaster struck.
4. The Role of Media in disseminating information during different phases of disaster cycle and in mitigating the Impact and in shaping response of people in time of crises is very significant. Keeping in view this three days training programme on Role of Media in Disaster Management was organized for DPRO, APRO of Information & Public Relation Department and Nodal Officers of different departments who are looking after the work of public relation of their department.
5. Apart from the above during the financial year 2015-16 several other training programmes were organized to aware and sensitize the key stakeholders in Comprehensive Disaster Management.
